

2022-23 Risk Management Premium Credit: How the Group Member Program Works

New in This Year's RMPC Program

United Educators (UE) has partnered with The Jed Foundation to, through the RMPC program, help your institution promote emotional well-being and prevent substance misuse and suicide. This year, high schools, colleges, and universities may sign an agreement to implement one of JED's programs to complete the RMPC program.

Learn more about JED's programs for [higher education](#) and [high schools](#).

80% of all group members must complete the RMPC for the entire group to earn a 4% credit.

Begin the RMPC Program

Each group member's primary UE insurance contact receives an invitation with a link to their RMPC dashboard following the policy renewal.

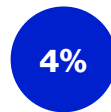

Select a Risk Mitigation

Each group member uses the link in their invitation email to access the Intake Form, where they choose a risk mitigation to implement [from this list](#).

Mitigate Risk

Each group member implements the risk mitigation they selected in their Intake Forms.

Earn a 4% Credit

Each group member uploads documents that demonstrate completion of their risk mitigation activity before the final deadline.

If you are unable to access your institution's RMPC dashboard, would like support for your risk mitigation efforts, or have other questions, you can reach UE's Risk Management team at risk@ue.org.
