

# 2020-2021 Risk Management Premium Credit: How the Individual Member Program Works

## Member Renews UE Coverage

An RMPC email invitation is sent to your institution's primary UE insurance contact. This email links to your institution's unique **RMPC dashboard** which identifies next steps and tracks progress.

## Phase I: Information Exchange = Initial 2% Credit

Complete Phase I activities using the links on your dashboard within four months of renewal or policy effective date to earn a 2% premium credit.

## Phase II: Risk Mitigation = Additional 4% Credit

Upon Phase I completion, you may opt to participate in Phase II.  
Select a risk to mitigate through either:

### ONLINE TRAINING

Submit a training plan to roll out a UE learning program within 7 months of renewal. Demonstrate successful achievement of intended training goals within 10 months of renewal.

### RISK MITIGATION ACTIVITY

Focus on an activity (for example, updating a policy or procedure, conducting a practice drill) that mitigates your chosen risk. Within 10 months of policy renewal, submit a final report including documentation that shows your institution's accomplishments.

Phase II activities are managed through your personalized RMPC dashboard. Upon completion, your institution earns an additional 4% credit.

Completion of the *Information Exchange* and *Risk Mitigation* phases within 10 months of policy renewal qualifies members for the full 6% premium credit on the next renewal.
