

# Risk Management Services and Resources From EduRisk

United Educators' (UE) mission to protect members goes beyond providing education-specific insurance. Through EduRisk, members have access to a comprehensive suite of risk management resources which address the safety, compliance, and liability risks at schools and on campus that can lead to claims.

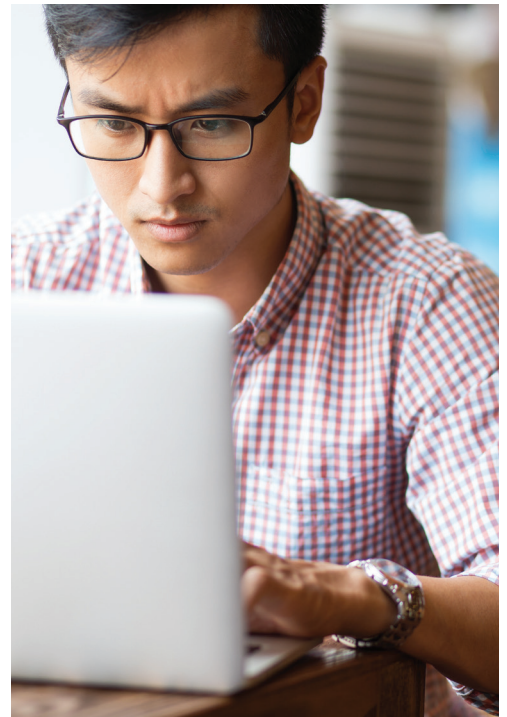

Use EduRisk resources to enhance your institution's risk management efforts on a wide range of important topics, such as:

- **Title IX, VAWA, Campus SaVE Act, and Clery Act compliance**
- **Concussion and traumatic brain injury management**
- **Study abroad program safety**
- **Protecting minors**
- **Workplace harassment prevention**

Personalized attention is available from our risk management team via telephone and email. In addition to keeping your campus, students, and staff safe, many EduRisk resources can qualify your institution for a credit on your liability insurance through our Risk Management Premium Credit (RMPC) program.

## Learning Programs

EduRisk blended learning programs enable institutions to cost-effectively train students, faculty, supervisors, and other staff. Our offerings include online courses as well as supplemental resources such as risk assessments, publications, blogs, videos, and learning games. Some institutions use these courses as a key component of meeting federal or state training requirements on issues such as workplace harassment prevention, sexual assault awareness and prevention, and concussion management. A UE risk management consultant can assist you with building an implementation strategy.

## Publications

Access our complete library of publications on [EduRiskSolutions.org](http://EduRiskSolutions.org). Resources for higher education and K-12 schools are continuously developed and updated to address topics such as sexual assault, concussion management, study abroad safety, bullying, security, and more. Publications include:

- **Claims studies:** Information about trends based on detailed analyses of member claims
- **Bulletins:** In-depth studies and risk advice
- **Checklists:** Practical actions for institutions to address challenges
- **Insights blog:** Guidance on timely issues faced by institutions

## Risk Advice

When confronted with an issue that requires personalized advice, research, or authoritative resources, we understand the immediate need for credible information. Simply email [risk@ue.org](mailto:risk@ue.org) for personal assistance from a risk management consultant experienced in managing the issues faced by higher ed and K-12 institutions.

## Risk Management Connect

Learn about the resources available to your institution by participating in a Risk Management Connect demonstration. During this session conducted online, we will discuss your most pressing risk management concerns and discuss resources to address your short- and long-term needs.

New members should take this opportunity to learn about the many resources available to them while renewing members will benefit from a discussion of new materials and suggestions for expanding use of available resources. The meeting will include a personalized, interactive demonstration of our online risk management resources and account management tools. Use our [online form](#) to request a Risk Management Connect demonstration.

## Webinars

On a regular basis, EduRisk hosts webinars that feature UE subject matter experts and national experts discussing best practices for risk management challenges and managing real-life scenarios. Invite others at your school or campus to participate in these webinars to learn how to navigate immediate challenges. Interactive question and answer sessions are included. Webinars are recorded and available on [EduRiskSolutions.org](http://EduRiskSolutions.org) for those who cannot participate during the live event.

For more information, visit [www.UE.org](http://www.UE.org) or call (301) 907-4908.
